# Bekim Frangu

## Software Developer

Goal-oriented developer with extensive expertise in website architecture design and web API design. Demonstrated ability to complete projects efficiently and effectively, with a meticulous attention to detail and a creative approach. Proficient in Backend and Frontend technologies, including SQL and NoSQL databases. Experienced in utilizing Business Intelligence Services to create and generate reports. Committed to ongoing learning and professional development, including the adoption of new programming languages and the creation of innovative applications. Challenging myself with new things it is the reason that keeps me motivated.
